

CREATE A BRAIN POSTER

Create your own poster about the brain. Think about the different functions of the 3 key parts. Take a look at our brain poster below to help you, or conduct your own research on the brain using books, the internet or ask your friends and family to help you.

We would love to see your finished posters! Send us a picture of your posters via email info@mindup.org.uk or on social media [@mindupuk](https://www.instagram.com/mindupuk) and we will share them on our social media accounts.
